

ez tag system

Tech Logic designed the EZ Tag System for easy, on demand RFID tagging of your collection. Control the look of your labels by printing your library's name, ID, and logo, and a barcode, while encoding and verifying RFID single and multiple labels, all in one step.

EZ Tag allows batch loading of barcodes for instant production of multiple tags, or you are able to program and print a single tag. The EZ Tag System encodes the tags for you, eliminating the need to pass each tag over an RFID antenna for encoding. When your conversion from barcodes to tags is complete, the EZ Tag system easily converts to a staff tag programming station for newly acquired items. The EZ Tag System has everything you need to perform tagging operations.

Features

- High Frequency RFID Label Printer
- Tech Logic's Lightweight Stainless Steel EZ Wheel Tagging Stand
- Barcode Scanner with Flexible Stand
- Dell Laptop and Laptop Lock
- Tech Logic's Tagging Software with a One Year Warranty and License

An optional 6–8 hour Smart UPS power supply is also available.

Easy to Use

To use the system, just scan the item's existing barcode label, and the Tech Logic EZ Tag System takes over. The printer prints your complete label with an encoded RFID tag that matches your barcode information. Single labels are presented to the operator with the label's backing liner removed and ready to apply to your item.

Compact Functionality

The Tech Logic EZ Tag System comes with a lightweight stainless steel wheeled stand and laptop. The EZ Tag system is easy to set up and portable. You can move the stand to different locations, depending on staff needs, making it convenient to tag your library's collection almost anywhere. The EZ Tag System's portable design allows the entire assembly to be shipped via UPS.

Tech Logic Part Number

45006742

Power Requirements

- 120 V, 60 Hz
- 3.3 FLA (Full Load Amps), 396 Watts

Features

- High Frequency RFID Label Printer/Encoder
- Dell Laptop
- USB Barcode Scanner with Flexible Stand
- Laptop Lock, MicroSaver Security Cable
- Stainless Steel Wheeled Stand

Label Specifications

- Capable of Printing on Paper or Synthetic Label Stock
- Print Labels Up to 4 in. (101.6 mm) Wide

- Label Lengths: 2 in. (50.8 mm), 4 in. (101.6 mm), or 6 in. (152.4 mm)
- Capable of Printing All Symbols

Printer Specifications

- 12.51 x 18.83 x 16.37 in. (317.8 x 478.3 x 415.8 mm)
- 46.6 lbs (21.1kg)
- Print Resolution: 203 DPI, 300 DPI
- Printing Method: Direct Thermal or Optional Thermal Transfer
- A/C Input Voltage: 90–132 or 180-264 V AC @ 47–63 Hz, Auto-Ranging
- Operating Temperature: 32°F–100°F (0°C–38°C)
- Humidity: 10–95% Non-Condensing

Stand:

- Laptop Platform
- Printer Platform/Post
- Wheeled Base

Equipment:

- Laptop
- Barcode Reader/Stand
- RFID Printer

Parts/Tools:

- Laptop Lock and Keys
- Ethernet Cable
- Extension Cord
- 5/16th Allen Wrench
- Thumbscrews
